Observations Arriving on site, I walked building 1. I noted some new grid work in the Southmost Restrooms and Admin Spaces as well as ceiling tile in the dining room.

I also walked building 3 and noted new demo in the south section of Corridor 328.

I spoke with Mrs. Taylor about new feedback they were experiencing with their intercom system that started Friday (10/25). We looked in the rooms that were demoed as of that time and could not see any indication of damage.
