Present at Site School Receptionists
Paul Purser, DBA

Observations Arriving, I walked Building 1 to note any changes and saw none.
I walked Building 3. Progress with Demolition and Reinstallation continues at an appropriate rate. Some item on reinstallation have not been completed (see figure 1, 2, 4, & 5).

I also spoke with Ms. Donna Smith in Room 302 who mentioned that a 12" piece of rebar had fallen on her computer equipment. She says that no damage was made. On inspection of where it possibly could have fell from, I noted a pipe hanger that appears to have been installed originally, but has since been disconnected (see figure 7).

Items to Verify Confirm Pipe Hanger was not in Use Prior to Demo and does not require reinstallation (Figure 7).

Action Required None
