| F 228.374.1414   | Observations  | Arriving on site, I entered on the Northside as school was out for spring break. I reviewed new ceiling install at the Northern Wing.   |
|  |   | I met Aubrey Wallace of Bomac Electric. They were running circuits for new addition.  |
|  |   | I walked the South Hall as well and noted ceiling grid in Cafeteria was<br>complete. I met Larry Knight, PJS, on the way back and he discussed that<br>they would have the rest of the ceiling tiles installed this week but that<br>material for 2x2 lay-in was not on site. |
|  |   | We also discussed that foundation work for addition had not begun and would not begin until gas pipe (which has been located) was moved per scope of work.  |
