Present at Site Richard Creel, Paul Jackson & Son
Paul Purser, DBA

Observations When I arrived on site, I met Richard Creel, PJS in the North Corridor. He requested that a couple of rooms be punched out, however I was unable to do so because either they were incomplete or had furniture already moved in. The floors in these areas appeared acceptable, but a punch list for these rooms will have to be made when they are complete and able to be viewed.

We walked the south corridor where many teachers' belongings have been moved from their rooms to the corridor by school employees. Mr. Creel was advised to work on the north corridor when ready to VCT until the school has moved these belongings from the hall. Mr. Creel reiterated that bathrooms and classrooms would be complete by the end of the month. Other parts of the projects will be completed around the school's schedule.

Items to Verify None

Action Required None
