	Observations	Arriving on site, I noted demo work at rear trailer area. Work is about 60% complete here. I met Travis Altsman, DBA and James Brock, PJS as well as Paul Jackson & Sons Finish Subcontractor inside, where we discussed plaster repairs. Interior ceiling demo is underway as well as the removal of chairs at the auditorium. I met the electrician in the hall who mentioned that the Main feeder for power running through the north hall was unsupported by anything other than the ceiling that was being demoed.
