161 Lameuse Street, Suite 201 Biloxi, MS 39530 P 228.374.1409 F 228.374.1414	Observations	I arrived on site and walked through the entry at the passage 117. The building had a very strong chemical smell which I can assume was from the stripper being used to remove paint at the windows. Only 2 workers were in the building applying the stripper and removing paint. Plumbers were in the rear courtyard working our drain pipe.
