161 Lameuse Street, Suite 201 Biloxi, MS 39530 P 228.374.1409 F 228.374.1414	Observations	On site, I met Jimmy White in the main corridor of the new addition. They were preparing for ceiling grid installation at the hall. Also, VCT floor install was in progress. We looked over the VCT tile installation in one of the rooms and noted some areas that needed re-installation. Most of the work looks good, there were just a few touch-up areas. Awnings at the exterior have also been installed.  Mr. White mentioned their schedule is right on track and that they are looking forward to getting into the main school this next week to complete their remaining tasks.
